

Factor Sum Table
Standard Form: $ax^2 + bx + c$

Problem: _____

Label	a=	b=	c=
-------	----	----	----

Factors a*c ____ * ____ = ____									
Sum b=____									

Rewrite with the middle terms as the factors	
Split into two groups	
Factor out the GCF	
Write down the duplicate binomial and the place the left overs in a binomial together.	
Answer	()()
